BALAJI S

Mechanical Engineer — EV Systems & Design

Jari Kondalampatti, Salem | +91 6379543640 | balajissbn72@gmail.com | linkedin.com/in/balaji

SUMMARY

Mechanical Engineering graduate (2026) with hands-on project experience in EV retrofitting, CAD design , BLDC motors and battery management systems, and cross-functional team coordination. Strong problem-Solving, analytical, communication, teamwork, and adaptability skills, with an interest in engineering and IT technologies. Seeking an entry-level opportunity in Graduate Engineer Trainee, Design Engineering, EV Engineering, IT, or Technical Support roles to apply my technical skills and contribute to organizational growth.

CORE SKILLS

Design & CAD: AutoCAD, Creo

EV Systems: BLDC Motors, Battery Management Systems (BMS), Motor Integration, Vehicle Modification

Programming: Java, HTML, CSS, JavaScript, SQL, Power BI, C

Engineering Practices: Cost Optimization, Weight Reduction, Design for Manufacturing

Professional: Team Leadership, Event Management, Communication, Problem Solving, MS Office

PROJECTS

Retrofitting of Internal Combustion Two-Wheeler to Electric Vehicle

- Converted a petrol-powered two-wheeler to an electric vehicle using a BLDC hub motor and rechargeable battery system, reducing fuel dependence and tailpipe emissions.
- Applied hands-on knowledge of EV powertrain integration, battery management systems, and vehicle modification from design through assembly.

Food Ordering System (Java)

- Developed a Java-based application for menu browsing, order placement, and payment handling with integrated database support.

COMPETITIONS & EVENTS

Electric Four Wheeler Design Challenge (EFWDC) — SAE India *Oct 2025*

- Led the team and headed procurement; secured 3rd prize among competing teams.
- Applied cost management and weight-reduction strategies to meet competition constraints.

Autosports — Go-Kart Event *Jul 2025*

- Competed as part of a team and won multiple category prizes, strengthening teamwork and time-management skills.

EDUCATION

B.E. Mechanical Engineering — Knowledge Institute of Technology *2026*
CGPA: 8.01 / 10

HSC — Salem Sri Sowdeswari Higher Secondary School *2022*
Percentage: 59.5%

SSLC — Salem Sri Sowdeswari Higher Secondary School *2020*
Percentage: 61.4%

IN-PLANT TRAINING

- Vivek Auto Works, Salem — Jun 2025: Developed management and communication skills.
- VN Motors, Salem — Jul 2024: Practiced punctuality, hard work, and technical inquisitiveness.
- Dolphin Motors, Salem — Sep 2023: Built self-motivated learning habits and technical fundamentals.

WORKSHOPS & PAPER PRESENTATIONS

- SAE workshop on vehicle engineering (EVs, battery management) — SRM University, Chennai.
- "Hard Work vs Smart Work" — Selvam College of Technology, Namakkal (Jun 2023).
- "Data Science in Mathematics" — Sri Sairam Institute of Technology, Chennai (Jun 2023).
- "Cricket and Its Technology and Science" — Anna University Regional Campus, Coimbatore (Nov 2023).

LEADERSHIP & EVENT COORDINATION

- Coordinator, Idea Presentation — Arivoli'25 College Symposium.
- Coordinator, Paper Presentation — Arivoli'24 College Symposium.
- Overall Coordinator, college cultural events: Pongal '24/'25, Onam '24/'25.

STRENGTHS

Problem Solving • Event Management • Self-Motivation • Adaptable (Hard & Smart Working)

EXTRACURRICULAR ACTIVITIES

NSS Volunteer • Cricket • Dance • Vlogging
